The Calculation Derived the Following Result:

Type	Result in DM
Rent	between **877.73** and **1086.15**
Rent without 'Nebenkosten'	between **581.46** and **768.08**
'Nebenkosten'	between **296.26** and **318.06**

Even if you have answered all questions, there will still be some imprecission due to the statistical model used.

We used the following information you gave us:

Basic Information	Your Input
Size of the flat in squaremeters	between **65** and **70**
Year, in which the house was built	between **1950** and **1960**
Number of rooms	between **2** and **3**
